ABOUT ME

I am an innovative, creative thinker and an experienced Software Engineer who is adept at developing solutions that work for the end users. I am a skilled leader and team player who has proven ability to motivate, educate, and manage a team of professionals in solving problems and delivering projects efficiently. Confident communicator, strategic thinker, and innovative creator that delivers software that is customized to meet the organization's needs and further their success.

PROGRAMMING SKILLS

JavaScript/Reactjs

TECHNICAL SKILL SETS AND EXPOSUS

Process automation, GraphQL, ORM, MVC, UML, OOP concepts like; Encapsulation, Polymorphism, Loose Coupling, Web Application Programming Interfaces (API), and enhanced concepts like; Separation of Concerns (SoC), Inversion of Control (IoC)

METHODOLOGIES

SOLID Principles and Software Design Patterns

LEADERSHIP/MANAGEMENT COMPETENCIES

- ❖ Ensuring Compliance to Internal Control Rules
- ❖ Data Analysis and Process Improvement
- ❖ Client Need Analysis And Management

BUSINESS INTELLIGENCE SKILLS

Crystal Reports

DATABASE MANAGEMENT

MySQL, MongoDB

TRAININGS

- ❖ Process Automation and Workflow Optimization: Concept to Implementation
- ❖ OOP using JavaScript

WORK EXPERIENCE

Econnect Network & Power (2021 – Till Date) (REMOTE)

React JS Developer

Job Responsibilities and Achievements:

Develop high performance customer facing e-commerce application using ReactJS, Redux-saga, React Hooks, React-Router, JavaScript, HTML5, CSS3, SASS, Bootstrap5.

Built custom components for UX-Library consisting Accordion, Filters, Dropdown, Carousel, Button, Checkbox, Input, Icons

Developed custom API layer to handle all CRUD transactions, JWT token management and implemented interceptors to embed custom headers

Maintained high-level expertise in React state management strategies, including Redux, Redux Persist and redux-saga

Exclusively used React-Hooks to handle application life-cycle processes.

The project is implemented by following TDD using Jest framework for React along with Enzyme test utilities.

Worked closely with clients to establish specifications and system designs. Used Zeplin and invision to collaborate with UX

Used Middleware, Redux-Saga with ImmutableJS in application to retrieve and store data from Back-End and to also perform RESTFUL services.

Effective use of native HTML elements and custom tags to enhance SE optimization and application ADA compliance feature

Implemented CSS Box Model and styled web pages using CSS preprocessor SASS and effectively used mixins, functions, custom grid systems, grid-area concepts and flexbox for fluid-responsive application

Expertise usage of GitLab and JIRA as version control and tracking units.

Worked in Agile Methodologies for incremental development to deliver better application

Fulus Investment Limited (2020– 2021)

Software Engineer (Front-end Role)

Software Engineer (Front-end Role)

Successfully deployed ERP Solutions to Corporate Establishments (Airlines (AZMAN), Security(Hogan), Oil and Gas (AZMAN)

Successfully deployed MajCorp Interest Solutions to Corporate Establishments (LASU, Zero Interest)

successfully used React Redux and useContext for state management

successfully implemented useCallback and React.memo to avoid unnecessary revaluation on the application .

Successfully Developed Enterprise Applications and the Maintenance of existing applications.

Ensure Strict Compliance to Internal Control Rules.

Improved Client Engagement

Actively engaged in the development, automation and optimization of new and existing process workflows to solve clients problems.

Successfully Coordinated Testing, Upgrade And Configuration Of System Files And Services

Successfully Implemented And Automated End to End Data Integration.

Compact Technologies (2019 – 2020)

Software Developer (Front-end Role)

Job Responsibilities and Achievements:

- ✓ Collaborating with a team of developers to build web applications with frameworks.
- ✓ Ensure Strict Compliance to Internal Control Rules
- ✓ Provided Network Installation And Troubleshooting Support
- ✓ Improved Client Engagement.
- ✓ Successfully Coordinated Testing, Upgrade And Configuration Of System Files And Services
